**Playthings**

Alex Pheby

A hallucinatory, fragmentary, and tragic fictional telling of one of the most famous psychotherapy cases in history, Alex Pheby's Playthings offers a visceral and darkly comic portrait of paranoid schizophrenia. Based on the true story of nineteenth-century German judge Daniel Paul Schreber, Playthings artfully shows the disorienting human tragedy of Schreber's psychosis, in vertiginous prose that blurs the lines between madness and sanity.

**The Pre-War House: and Other Stories**

Alison Moore

From the Man Booker shortlisted author of The Lighthouse comes this uncanny collection of short fiction about the unhomeliness of home: fractured families, domestic claustrophobia, and the unseen menace of the everyday. Alison Moore moves deftly from flash fictions to novella, from insightful realism to chilling gothic horror. With the same emotional tension and tightly controlled prose that garnered her first novel such accolades, Moore once again shines a light into the darkest corners of the human heart and stares unflinchingly at the horrors found there.

**Why Indigenous Literatures Matter***Indigenous Studies*  
Daniel Heath Justice

Part survey of the field of Indigenous literary studies, part cultural history, and part literary polemic, Why Indigenous Literatures Matter asserts the vital significance of literary expression to the political, creative, and intellectual efforts of Indigenous peoples today. In considering the connections between literature and lived experience, this book contemplates four key questions at the heart of Indigenous kinship traditions: How do we learn to be human? How do we become good relatives? How do we become good ancestors? How do we learn to live together? Blending personal narrative and broader historical and cultural analysis with close readings of key creative and critical texts, Justice argues that Indigenous writers engage with these questions in part to challenge settler-colonial policies and practices that have targeted Indigenous connections to land, history, family, and self. More importantly, Indigenous writers imaginatively engage the many ways that communities and individuals have sought to nurture these relationships and project them into the future.

**Ms. Prime Minister: Gender, Media, and Leadership**

Linda Trimble

Ms. Prime Minister offers both solace and words of caution for women politicians. After closely analyzing the media coverage of former Canadian Prime Minister Kim Campbell; two former Prime Ministers of New Zealand, Jenny Shipley and Helen Clark; and Australia's 27th Prime Minister, Julia Gillard, Linda Trimble concludes that reporting both reinforces and contests unfair gender norms. News about female leaders gives undue attention to their gender identities, bodies and family lives. Yet equivalent men are also treated to evaluations of their gendered personas. And, as Trimble finds, some media accounts expose sexism and authenticate women's performances of leadership. Ms. Prime Minister provides important insight into the news frameworks that work to deny or confer political legitimacy. It concludes with advice designed to inform the gender strategies of women who aspire to political leadership roles and the reporting techniques of the journalists who cover them.

**Homes: A Refugee Story**

Abu Bakr al Rabeeah Winnie Yeung

In 2010, the al Rabeeah family left their home in Iraq in hope of a safer life. They moved to Homs, in Syria - just before the Syrian civil war broke out. Abu Bakr, one of eight children, was ten years old when the violence began on the streets around him: car bombings, attacks on his mosque and school, firebombs late at night. Homes tells of the strange juxtapositions of growing up in a war zone: horrific, unimaginable events punctuated by normalcy - soccer, cousins, video games, friends. Homes is the remarkable true story of how a young boy emerged from a war zone - and found safety in Canada - with a passion for sharing his story and telling the world what is truly happening in Syria. As told to her by Abu Bakr al Rabeeah, writer Winnie Yeung has crafted a heartbreaking, hopeful, and urgently necessary book that provides a window into understanding Syria.

**Life and Soul: How to Live a Long and Healthy Life**

William Roache

In his first memoir, *Soul on the Street*, Britain's most beloved actor William Roache shared his spiritual beliefs and experiences with the public for the first time. These included his ability to see spirits, his interest in astrology and druid philosophy, and his belief in reincarnation, past lives, and the afterlife.

His first memoir was an open letter to his fans, who had often written to him not knowing where else to turn for information regarding life's deepest questions. Now, in *Life and Soul*, William shares his most recent life experiences and the wisdom gained through these. Recent years have seen William live through extremely challenging events, such as the death of his wife and of a close friend, and a harrowing court case for alleged abuse. This book is a searingly honest account of these events, but most importantly, it is a unique insight into how William was able to live through these challenges with strength, hope, and dignity. ... **Robin**

Dave Izkoff

From New York Times culture reporter Dave Izkoff, the definitive biography of Robin Williams – a compelling portrait of one of America's most beloved and misunderstood entertainers.

From his rapid-fire stand-up comedy riffs to his breakout role in *Mork & Mindy* and his Academy Award-winning performance in *Good Will Hunting*, Robin Williams was a singularly innovative and beloved entertainer. He often came across as a man possessed, holding forth on culture and politics while mixing in personal revelations – all with mercurial, tongue-twisting intensity as he inhabited and shed one character after another with lightning speed. But as Dave Izkoff shows in this revelatory biography, Williams's comic brilliance masked a deep well of conflicting emotions and self-doubt, which he drew upon in his comedy and in celebrated films like *Dead Poets Society*, *Good Morning, Vietnam*, *The Fisher King*, *Aladdin*, and *Mrs. Doubtfire*, where he showcased hi... **Depression the Comedy: A Tale of Perseverance**

Jessica Holmes

In her upcoming book, Holmes takes readers on her journey—sometimes laugh out loud, sometimes cringe-worthy—from successful performer to basically living the life of a house cat. She covers marriage counselling, where jokes come from, the chicken and the egg of depression and comedy, surrounding the sofa with junk food so it looks like a tornado hit a 7-Eleven, her kids' take on the perks of having a depressed mom ("We don't have to clean up anything. Yesterday the cat barfed and mom just put a cushion on it and went back to playing on the iPad!"), and the obnoxiousness of anti-depressant commercials ("I never noticed the ocean before!"). Whether you have suffered from depression a little ("I get sad every January") or a lot ("My psychiatrist doesn't have a name for what I've got"), of maybe you just think real life calls for levity and understanding, this book is for you.

### The Unpunished Vice : A Life of Reading

Edmund White

A new memoir from acclaimed author Edmund White about his life as a reader. Literary icon Edmund White made his name through his writing but remembers his life through the books he has read. For White, each momentous occasion came with a book to match: Proust's Remembrance of Things Past, which opened up the seemingly closed world of homosexuality while he was at boarding school in Michigan; the Ezra Pound poems adored by a lover he followed to New York; the biography of Stephen Crane that inspired one of White's novels. But it wasn't until heart surgery in 2014, when he temporarily lost his desire to read, that White realized the key role that reading played in his life: forming his tastes, shaping his memories, and amusing him through the best and worst life had to offer. Blending memoir and literary criticism, *The Unpunished Vice* is a compendium of all the ways reading has shaped White's life and work. His larger-than-life presence on the literary scene lends itself to fascinating, intimate insights into the lives of some of the world's best-loved... [\[more\]](#)

### Because I Come from a Crazy Family : The Making of a Psychiatrist

Edward M Hallowell

From the bestselling author of the classic book on ADD, *Driven to Distraction*, a memoir of the strange upbringing that shaped Dr. Edward M. Hallowell's celebrated career. When Edward M. Hallowell was eleven, a voice out of nowhere told him he should become a psychiatrist. A mental health professional of the time would have called this psychosis. But young Edward (Ned) took it in stride, despite not quite knowing what "psychiatrist" meant. With a psychotic father, alcoholic mother, abusive stepfather, and two so-called learning disabilities of his own, Ned was accustomed to unpredictable behavior from those around him, and to a mind he felt he couldn't always control. The voice turned out to be right. Now, decades later, Hallowell is a leading expert on attention disorders and the author of twenty books, including *Driven to Distraction*, the work that introduced ADD to the world. In *Because I Come from a Crazy Family*, he tells the often strange story of a childhood marked by what he calls the "WASP triad" of alcoholism, mental illness, and politeness, and explore... ### Visible Empire

Hannah Pittard

From a writer who "deserves the attention of anyone in search of today's best fiction" comes an epic novel—based on true events—of wealth, race, grief, and love, charting one sweltering summer in Atlanta that left no one unchanged (\*Washington Post)

It's a humid summer day when the phones begin to ring: disaster has struck. Air France Flight 007, which had been chartered to ferry home more than one hundred of Atlanta's cultural leaders following a luxurious arts-oriented tour of Europe, crashed shortly after takeoff in Paris. In one fell swoop, most of the city's wealthiest residents perished.

Left behind were children, spouses, lovers, friends, and a city on the cusp of great change: the Civil Rights movement was at its peak, the hedonism of the 60s was at its doorstep. In Hannah Pittard's dazzling... [\[more\]](#)

**How Hard Can It Be?**

Allison Pearson

Allison Pearson's brilliant debut novel, *I Don't Know How She Does It*, was a New York Times bestseller with four million copies sold around the world. Called "the definitive social comedy of working motherhood" (The Washington Post) and "a hysterical look—in both the laughing and crying senses of the world—at the life of Supermom" (The New York Times), *I Don't Know How She Does It* introduced Kate Reddy, a woman as sharp as she was funny. As Oprah Winfrey put it, Kate's story became "the national anthem for working mothers." Seven years later, Kate Reddy is facing her 50th birthday. Her children have turned into impossible teenagers; her mother and in-laws are in precarious health; and her husband is having a midlife crisis that leaves her desperate to restart her career after years away from the workplace. Once again, Kate is scrambling to keep all the balls in the air in a juggling act that an early review from the U.K. Express hailed as "sparkling, funny, and poignant—a triumphant return for Pearson." **Factfulness:** Ten Reasons We're Wrong About the World - and Why Things Are Better Than You Think

Hans Rosling, Anna Rosling Ronnlund, Ola Rosling

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious... [\[more\]](#)

**Human Errors:** A Panorama of Our Glitches, From Pointless Bones to Broken Genes

Nathan H Lents

An illuminating, entertaining tour of the physical imperfections—from faulty knees to junk DNA—that make us human. We humans like to think of ourselves as highly evolved creatures. But if we are supposedly evolution's greatest creation, why do we have such bad knees? Why do we catch head colds so often—two hundred times more often than a dog? How come our wrists have so many useless bones? Why is the vast majority of our genetic code pointless? And are we really supposed to swallow and breathe through the same narrow tube? Surely there's been some kind of mistake.

As professor of biology Nathan H. Lents explains in Human Errors, our evolutionary history is nothing if not a litany of mistakes, each more entertaining and enlightening than the last. The human body... [\[more\]](#)

**The Disordered Mind:** What Unusual Brains Tell Us About Ourselves

Eric R Kandel

Nobel Prize recipient Eric R. Kandel investigates The Disordered Mind to uncover what brain disorders reveal about human nature. This challenging study will not only help transform medical care but also encourage a new humanism based in part on the biological confirmation of individuality. Eric R. Kandel, the winner of the Nobel Prize in Physiology or Medicine for his foundational research into memory storage in the brain, is one of the pioneers of modern brain science. His work has helped shape our understanding of how learning and memory work. Building from this scientific research, Kandel explores one of the most fundamental questions we face: How does our mind, our individual sense of self, arise from the physical matter of the brain? The brain's 86 billion neurons communicate with one another through very precise connections. If those connections are disrupted, the brain processes that give rise to our mind can become disordered, resulting in diseases such as depression, schizophrenia, Parkinson's, and autism... **Back to Beer ... and Hockey : The Story of Eric Molson**

Helen Antoniou

To most Canadians, the Molson name is part of the very fabric of Canada. Since 1786, when John Molson founded his first brewery in Montreal, it has become synonymous with beer, hockey, and philanthropy. Few realize, however, how close the family came in recent years to losing control of the enterprise. Back to Beer...and Hockey offers intimate details of the life and work of Eric Molson, who not only saved the company, but positioned it to thrive as a global brewery into the twenty-first century. With unprecedented access to the Molson family, Helen Antoniou traces Eric Molson's evolution from a young brewmaster captivated by the chemistry of beer-making to chairman of Molson. Quiet by nature, he had to confront big egos, navigate complex boardroom politics, and even battle a disruptive cousin who tried to push him out of the way. Antoniou's carefully researched account details how the introverted Eric overcame his aversion to conflict to take the company from a failing conglomerate back to its core business of beer, eventually turning it i... **The Figgs**

Ali Bryan

Meet the Figgs. June, the family's matriarch, looks forward to a quiet retirement - if only she can get her three adult children to finally, finally, move out of the house. But her dreams are shattered when her son Derek unexpectedly becomes a single father. Now there's a newborn baby at home, and Derek's older siblings are showing no sign of going anywhere either. In the midst of the chaos, June's husband, Randy, has a shocking revelation. With family life flying fast and furious around her, June finds herself thinking about her parents - adoptive and biological. Where did she come from? Will her new grandson be traumatized without his mother? And why in the world are all the kids still at home, anyway? The Figgs combines the quiriness of Miriam Toews the startling humour and fierce energy of Heather O'Neill, the heart of Little Miss Sunshine, and the unruly family dynamics of Jonathan Tropper's This Is Where I Leave You into one hilarious, immensely fun novel.
