Science Superstars

30 Brilliant Women Who Changed the World by Jennifer Calvert, illustrated by Octavia Jackson

Captivating profiles of STEM leaders to inspire tween girls

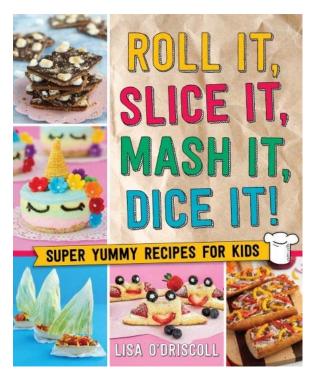

Girls need role models, and this book offers 30 world leaders in science to inspire and motivate them. With fascinating profiles, fun facts, and original illustrations, Science Superstars shows young girls that it's possible to achieve great success in STEM fields by showcasing some of the women who have done it.

Author Bio

JENNIFER CALVERT is a writer, editor, and all-around book-loving nerd. When she's not highlighting the accomplishments of incredible young women, you'll find her curled up with a soft cat and a hardcover. She is the author of *Teen Trailblazers*.

OCTAVIA JACKSON was drawn to illustration and printmaking after studying Graphic Design in Chicago at DePaul University. She became passionate about illustration when she saw the underrepresentation of women of color like herself in the world of art. Geared with a sketchbook and a dream, she set out to illustrate the colorful women, to champion social justice, and to speak up for those who are underrepresented and left out. She now lives in Grand Rapids, Michigan with her fiance and twocats.
