## Into the Light

by David Weber and Chris Kennedy

In David Weber and Chris Kennedy's *New York Times*-bestselling science fiction epic *Out of the Dark*, Earth beat back an alien invasion. Now comes the recovery . . . and the revenge, in *Into the Light*.

The Shongairi conquered Earth. In mere minutes, half the human race died, and our cities lay in shattered ruins.

But the Shongairi didn't expect the survivors' tenacity. And, crucially, they didn't know that Earth harbored two species of intelligent, tool-using bipeds. One of them was us. The other, long-lived and lethal, was hiding in the mountains of eastern Europe, the subject of fantasy and legend. When they emerged and made alliance with humankind, the invading aliens didn't stand a chance.

Now Earth is once again ours. Aided by the advanced tech the aliens left behind, we're rebuilding as fast as we can.

**Coming Back**

How to Win the Job You Want When You've Lost the Job You Need  
by Fawn Germer

Millions of mid- and late-career professionals are wondering why our careers are dying. We've been fired, downsized, job-eliminated, or we've left work voluntarily to raise children, care for loved ones, or go to school. Our unemployment rate is more than three times the national average. It takes twice as long to get hired, usually for far less money than we were making. Is it age discrimination? Maybe. But it's not that simple.

So many of us have lagged on skills and technology, shrugged off social media, or ignored the rate of change and let younger people become the face of our profession's future. Our "track record" really doesn't matter. We want to come back, but we aren't ready.

Coming Back offers clear advice, including:

- Stop playing the victim, even if you are one.
- Those who give in create opportunity for those who don't. Win because of the

## Justice Is Coming

How Progressives Are Going to Take Over the Country and America Is Going to Love It

by Cenk Uygur, read by Cenk Uygur

Right now, the shelves are filled with books on Donald Trump, as if everything was just hunky dory before the orange monster took over. Well, it wasn't. What ails America goes far beyond Trump, but don't worry - progressives are going to take over the country and America is going to love it. In fact, we already have - but Washington just won't admit that fact.

In *Justice Is Coming*, The Young Turks founder Cenk Uygur presents two central ideas that counter everything we hear from pundits and politicians on a daily basis: one, progressives are correct on all of the issues, and two, America is actually a very progressive country. Millions of us know that we are not isolated individuals - we are a part of something larger, a movement that is already transforming Washington.

This compulsively readable manifesto seeks to apply the momentum we have already built to a concrete progressive agenda that activists, voters, and citizens can all rally

Pleasant at first, the day turns ugly when the four encounter a prison transfer bus on a stretch of empty road. Beautiful but drunk, one of the women taunts the prisoners in a fashion so sexual and cruel it leads to a riot on the bus and a bloody beat down from the guards. Tyra finds it funny in the moment, but is savagely murdered soon after.

Given his violent history, suspicion turns first to Jason, but when the second woman is

**Your Turn**

How to Be an Adult  
by Julie Lythcott-Haims

**Having tackled a far-reaching parenting crisis with her *New York Times* bestselling *How to Raise an Adult*, Lythcott-Haims is back with an equally powerful and persuasive book for the adult children of those hovering parents - and for everyone who struggles to be a grown-up in these challenging times.**

What does it mean to be a grownup"? And how do we define success? For generations, the milestones were easy to pinpoint: college graduation, if possible, a steady nine-to-five, home ownership; marriage; and children not long after. For those entering adulthood today, expectations and hopes are sometimes as rigid and high-pressure as they ever were, but the realities and the options have changed. Many choose to pursue careers and passions that diverge from desk jobs, joining the escalating gig economy; many live at home with family to save money in the face of staggering student debt; and others begin struggling with how or whether raise their own children in a time of steep economic inequality and climate change. When it comes to essential, basic skills such as dating and building friendships, or learning to

In present-day Miami, Jeanette is battling addiction. Daughter of Carmen, a Cuban immigrant, she is determined to learn more about her family history from her reticent mother and makes the snap decision to take in the daughter of a neighbor detained by ICE. Carmen, still wrestling with the trauma of displacement, must process her difficult relationship with her own mother while trying to raise a wayward Jeanette. Steadfast in her quest for understanding, Jeanette travels to Cuba to see her grandmother and reckon with secrets from the past destined to erupt.

From 19th-century cigar factories to present-day detention centers, from Cuba to Mexico, Gabriela Garcia's *Of Women and Salt* is a kaleidoscopic portrait of betrayals - personal and political, self-inflicted and those done by others - that have shaped the lives of these extraordinary women. ## The Good Sister

A Novel

by Sally Hepworth, read by Barrie Kreinik

From the outside, everyone might think Fern and Rose are as close as twin sisters can be: Rose is the responsible one, with a home and a husband and a fierce desire to become a mother. Fern is the quirky one, the free spirit, the librarian who avoids social interaction and whom the world might just describe as truly odd.

But the sisters are devoted to one another and Rose has always been Fern's protector from the time they were small. Fern needed protecting because their mother was a true sociopath who hid her true nature from the world, and only Rose could see it. Fern always saw the good in everyone. Years ago, Fern did something very, very bad. And Rose has never told a soul.

When Fern decides to help her sister achieve her heart's desire of having a baby, Rose realizes with growing horror that Fern might make choices that can only have a terrible outcome. What Rose doesn't realize is that Fern is growing more and more aware of the secrets Rose, herself, is keeping. And that their mother might have the last word

## Broken (in the best possible way)

by Jenny Lawson

As Jenny Lawson's hundreds of thousands of fans know, she suffers from depression. In *Broken*, she explores her experimental treatment of transcranial magnetic stimulation with brutal honesty. But also with brutal humor: "People do different things to distract themselves during each treatment. I embroider. It feels fitting. I'm being magnetically stabbed in the head thousands of times as I'm stabbing the embroidery myself. I don't embroider the same patterns my grandmother did. I embroider girls with octopus faces, David Bowie, a flowery bouquet with FUCK YES written in the middle. They let you do anything as long as it's 'positive.'"

Jenny discusses the frustration of dealing with her insurance company in "An Open Letter to My Insurance Company," which should be an anthem for anyone who has ever had to call their insurance company to try and get a claim covered. On the lighter side, she tackles such timelessly debated questions as "How do dogs know they have penises?" We see how her vacuum cleaner almost set her house on fire, how she was attacked by three bears, business ideas she wants to pitch to Shark Tank, and why she can never go back to the post office. Of course, Jenny's long-suffering husband Victor -

## Blood and Treasure

Daniel Boone and the Fight for America's First Frontier

by Tom Clavin and Bob Drury

It is the mid-18th Century, and in the 13 colonies founded by Great Britain, anxious colonists desperate to conquer and settle North America's "First Frontier" beyond the Appalachian Mountains engage in a never-ending series of bloody battles. These violent conflicts are waged against the Native American tribes whose lands they covet, The French, and finally against the mother country itself in an American Revolution destined to reverberate around the world.

This is the setting of "Blood and Treasure" and the guide to this epic narrative is none other than America's first and arguably greatest pathfinder Daniel Boone - not the coonskin cap-wearing caricature of popular culture but the flesh-and-blood frontiersman and military hero whose explorations into the forested frontier beyond the great mountains would become the stuff of legend. Now, thanks to painstaking research by two award-winning authors, the story of the brutal birth of the United States is told through the eyes of both the ordinary and larger-than-life people who witnessed it.

## The Perfect Daughter

A Novel

by D.J. Palmer

Grace never dreamt she'd be visiting her teenaged daughter Penny in the locked ward of a decaying state psychiatric hospital, charged with the brutal murder of an apparent stranger. There was not much question of her daughter's guilt. Police had her fingerprints on the murder weapon and the victim's blood on her body and clothes. What they didn't have was a motive.

Grace blames herself for the horrible turn of events, because that's what mother's do - they look at their choices, the paths not traveled, and they wonder, what if? But hindsight offers little more than the chance for regret.

None of this was conceivable the day Penny came into her life. Back then, it all seemed like something of a miracle. Penny was found abandoned, with a mysterious past, and it seemed like fate brought Penny to her, and her husband Arthur. But as she grew, Penny's actions became more and more disturbing, and different "personalities" seemed to emerge.

## A Good Day for Chardonnay

by Darynda Jones, read by Lorelei King

Running a small-town police force should be a swell, chat-with-the-townspeople kind of job. But for full-time Sheriff and even fuller-time coffee guzzler Sunshine Vicram, she's about to sweat more than a polar bear on a July day in New Mexico . . .

All Sunshine really wants is one easy-going day. You know, the kind that starts with coffee and a donut (okay, a few donuts) and ends with take-out pizza and a glass (okay, a few glasses) of chardonnay. But that's about as easy as switching to decaf and pretending its regular (WHO are these people that do this and who hurt them)??

Suddenly, she's got a bar fight turned uglier than usual, her teenage daughter has taken it upon herself to investigate a serial killer, and oh yes, there's still the mystery of her unresolved abduction from years ago - a conundrum which continues to feature moonshine distiller and total dangerous baddie dreamboat Levi Ravinder. Sunny knows he's not the villain from her past . . . but perhaps beneath it all, he holds the keys to her disappearance from years ago. And heck, beneath it all, there's at least a serious set of abs.

## One Two Three

A Novel

by Laurie Frankel, read by Emma Galvin and Jesse Vilinsky

Mab is the "normal" one, never mind Bourne Memorial High School has banned that term, and besides, she's a stickler for words and definitions and knows normal isn't normal in Bourne.

Monday is a stickler for everything else. She doesn't like abbreviations, contractions, lies, typos, or wearing green clothes on yellow days. When the Bourne library shut down - funds desperately needed elsewhere - she stashed the books under her bed, behind the sofa, along the stairs, inside the microwave, and lends them from home.

Mirabel's the smart one, the slow one, the stuck one. Much of her body requires augmentation - she needs a wheelchair to navigate the world, a voice app to speak to it - but her right arm and hand work flawlessly. And so do her brain and her heart.

Nora gave her girls "M" names with escalating syllables so she'd be able to keep them straight. As if single parenting sixteen-year-old triplets weren't enough, her two jobs -
