Myth Busters: Animal Errors

by Clive Gifford

Mythbusters takes readers on a wild ride through history, science, the natural world and the human body in search of the TRUTH! Conspiracy theories, popular trivia, old wives' tales, common misconceptions, misinterpretations and other fallacies are explored to untruth exactly why they are wrong, and how and why they were adopted as fact in the first place. Thoroughly entertaining with fun typography, fast-paced text, light and fascinating side-stories, and lively, photo-montaged illustrations, this big huge compendium of curriculum-led subjects appeals to today's technological-savvy children. Fully detailing each myth and error, along with its historical or scientific background, each falsehood is debunked, and then a full explanation of its true facts are presented.

Author Bio

Clive Gifford is an award-winning author, based in Manchester, England, specialising in engaging and entertaining non-fiction books for children and young adults. His titles for Kingfisher include the Kingfisher Football Encyclopedia, Basketball, the Kingfisher Geography Encyclopedia, In Focus: Galapagos Islands and Soccer Skills.

Activists Assemble - We Are All Equal!

by Shannon Weber

What is equality? A big question to answer and an even bigger topic to implement. *Activists Assemble - We Are All Equal* explains what it is to be a citizen, how important it is to treat, and be treated, as equal within the society, and how you can use your voice to champion equality. Discover the history of equality - both the successes and the tragedies, meet past and present faces who overcame discrimination to be a voice for us all, and explore ways you can make a difference and challenge inequality. Important topics such as disabilities, gender, religion, and race are discussed, giving readers all the information and practical advice needed to get their voices heard. An activity section gives readers the opportunity to explore equality further: they can test their equality knowledge, start important conversations using the discussion time" questions, as well space to write down their thoughts and observations.

Author Bio

Shannon Weber is the author of *Feminism in Minutes* (Quercus Books, 2019) and a book on US civics for children. She has also written for volumes such as *The Feminism Book* and *Women: Our History*. Shannon holds a Ph.D in Feminist Studies from the University of California and has taught courses in women's and gender studies, sociology, and education at several colleges and universities in California and Massachusetts.

Activists Assemble - Save Your Planet

by Ben Hoare

The world can seem a scary place to live. Worries and fears about our planet and the impact of human behaviors are widely discussed. But you can help! *Activists Assemble - Save Your Planet* details the major current environmental issues, why they occur, and how they can be resolved. Discover how and why the world is getting hotter, the consequences of deforestation, and the impact of too many vehicles. Become a real-life super hero and help to protect the environment - from quick and easyfixes to changes that could have a long-term global effect. Meet the famous faces leading the way in the worldwide crusade to be more environmentally friendly and take the quiz to find out just how green you truly are. . . and could be. This is our planet - we can save it!

Author Bio

Ben Hoare is an award-winning journalist who has written and edited many natural-history books and magazines for DK, the BBC, London's Natural History Museum and many others. Since 2008 he has been Features Editor of BBC Wildlife Magazine. In 2015 Ben was awarded the Dilys Breese Medal for science communication by the British Trust for Ornithology (BTO) - he is one of only 15 people to hold the award.

Amazing Machines: Colossal Cranes

by Tony Parker, illustrated by Ant Parker

Amazing Machines: Colossal Cranes follows the animal team as they encounter all the jobs cranes carry out on a busy, bustling building site. Each page is filled with details that machine-mad kids will love.

From airplanes to electric cars, the internationally bestselling Amazing Machines series is the perfect way for children to learn about all sorts of machines and vehicles! Each book introduces a new vehicle or machine and the many jobs it can do. Bright, engaging artwork and simple, rhyming text combine to make these fantastic books for young children. Kids will love getting to know the friendly, animal characters who feature throughout the series and reading about their fast-paced adventures!

Author Bio

Tony Mitton is a full-time writer and sometimes performs his poems in schools and libraries and occasionally at other venues, mainly in the UK. His main published work consists of solo collections of lyric and narrative poetry, and verse picture books illustrated by a range of illustrators. His picture books include *Down by the Cool of the Pool* (with Guy Parker-Rees) and *The Somethingosaur* (with Russell Ayto).

Ant Parker studied drawing and printing at the Bath Academy of Art in England and has taught papermaking, printing and bookbinding workshops for children. Toddlers and parents around the globe have discovered the irresistible appeal of his wacky cartoon characters in *Flashing Fire Engines*, *Terrific Trains*, *Dazzling Diggers*, and *Roaring Rockets*. Other titles include *Charlie the Chicken* and *Desmond the Dog*.

Basher History: US Presidents

Oval Office All-Stars

by Dan Green and Edward Widmer, illustrated by Simon Basher

Basher's Presidents shows you the nation's leaders as you've never seen them before. Every president, from George Washington to the winner of the 2021 election, has an individual entry and speaks directly to the reader. Often humorous, these lively and enlightening articles bring history to life.

Meet James Monroe, known as the "Last Cocked Hat" because he pranced around in an outdated wig, hat, and breeches! Learn more about "Uncle Jumbo" (better known as Grover Cleveland): the only president to serve two non-consecutive terms. Find out how Ronald Reagan helped end the Cold War. Quirky facts add interest. Did you know that John Quincy Adams had a pet alligator? That Teddy Roosevelt (and his whole family) could walk on stilts? Or that Lyndon B. Johnson had worked as an elevator operator? Read this book, and you'll soon be on personal terms with every single US Head Honcho to date.

Author Bio

Dan Green is the voice of Basher, the author of numerous Basher titles. He's a journalist and science writer with a brilliant knack for communicating complicated information in a child-friendly way. Two of his titles, Kingfisher's Human Body Factory and Scholastic's Discover More: The Elements, were shortlisted for the Royal Society Young People's Book Prize. Dan has an MA in Natural Sciences from Cambridge University, where he specialized in geology.

Artist and designer Simon Basher has fun playing in the world of contemporary character design. Inspired by a love of simple line work and a rich color palette, his characters fill the gap between edgy manga and the cuteness of Hello Kitty. He lives in England.

Discover It Yourself: Batteries, Bulbs, and Wires

by David Glover

This book is packed with scientific facts, experiments, and activities linked to electricity and magnetism. It brings a lively, hands-on approach to practical science experiments. Children can find almost everything they need for the experiments around the home, and the materials and instructions are simply, safely, and clearly presented. This STEM-focused book will show readers how to build a battery-connected circuit, construct a DIY burglar alarm, make your own magnets, and much more.

Author Bio

David Glover has worked as a research scientist and as a teacher of math and science. He has written bestselling math and science books for all ages, from elementary schoolchildren to university students. He loves challenging puzzles and problems!

Basher: Kids' Guide to Money

by Jacob Field, illustrated by Simon Basher

From Bitcoin and the black economy to GDP, interest rates, and wages, bestselling illustrator Basher brings the story of money to life in a truly memorable way for readers aged 8 and over. Humorous, chatty text makes even the most challenging concepts easily accessible, plus there are eye-opening side stories and mini profiles of the men and women who helped to create the financial system that runs the modern world - all paired with Basher's eye-catching character-based illustrations.

Author Bio

Dr Jacob Field is an economic historian and the author of many books and articles on popular history, including *Is Capitalism Working?* (Thames and Hudson, 2018). Jacob lives in London where he teaches history at a girls' school as part of the Researchers in Schools program.

Artist and designer Simon Basher has fun playing in the world of contemporary character design. Inspired by a love of simple line work and a rich color palette, his characters fill the gap between edgy manga and the cuteness of Hello Kitty. He lives in England.

Basher Science: An A to Z of Science

by Tom Jackson, illustrated by Simon Basher

This handy visual dictionary covers the key topics in the core STEM subjects of biology, chemistry, and physics. The A-Z of Science brings the unique and popular Basher illustration approach of capturing key scientific concepts as quirky but memorable characters, combined with the informative, humorous, and accessible text of science author Dan Green. This handy guide will be a sure-fire hit with school students learning these core subjects for the first time, as well as a useful reference guide and reminder for older high-school and college students looking for a revision guide.

The entries are organized alphabetically, and cover all the topics you would expect to find in a core science book, from acids and atoms to X-rays and zygotes. Break-out feature spreads cover more complex, high-interest topics such as classification, cell, and nitrogen cycle.

The A-Z of Science includes over 300 scientific definitions, many of them accompanied by Basher's perennially popular hip-kicky illustrations. It's a must-have book for every student of science.

Author Bio

Location: Simon Basher - United Kingdom

Dan Green is the author of numerous Basher titles. He's a journalist and science writer and loves communicating complicated information in a child-friendly way. Two of his titles, Kingfisher's Human Body Factory and Scholastic's Discover More: The Elements, were shortlisted for the Royal Society Young People's Book Prize. Dan has an MA in Natural Sciences from Cambridge University, where he specialized in geology.

Artist and designer Simon Basher has fun playing in the world of contemporary character design. Inspired by a love of simple line work and a rich color palette, his characters fill the gap between edgy manga and the cuteness of Hello Kitty. He lives in England.

Dino Detective In Training

by Catherine Ard

Step into the shoes of a dinosaur hunter! Find out all about how to unearth fossils, how dinosaurs lived, and how to become a paleontologist

Learn how to become a paleontologist in this exciting title! Packed with bitesize information and fun facts about the life of dinosaurs, *Dino Detective in Training* will tell you all about dinosaur habitats, how they become extinct, and where you can find fossils.

Author Bio

Catherine Ard has always loved to read books and write stories. She studied French and English at university and got her first job in London writing children's comics. She has written and edited many reading, activity, craft, and reference books for children. She now lives in Bristol with her family and their dog, Annie, who sleeps by her feet while she is working.

Eco Hero In Training

by Jo Hanks, illustrated by Sarah Lawrence

Learn how to become an ecologist in this exciting title! Packed with bitesize information and fun facts about the life of a nature lover, *Eco Hero in Training* will tell you all about habitats, animals, and plants, and how we can all be greener.

Author Bio

Jo Hanks writes fiction and non-fiction books for children of all ages. She has a particular love of non-fiction and has written about big topics like the environment, dinosaurs, global history, ancient history, the supernatural (agreed, some might say that's not strictly non-fiction. . .); and arguably smaller subjects like shapes, colours, sizes and fluffy bunnies. Writing non-fiction is really just an excuse for her to spend days reading about very interesting things.

Sarah Lawrence is a freelance graphic designer, illustrator, and strategist working in Atlanta, Georgia. After graduating with a BFA in graphic design from the University of Georgia, she returned home to Atlanta to work for Paste Magazine, before eventually going out on her own.

Animal Crossing New Horizons Residents' Handbook by Claire Lister

Dreaming of an island getaway? Now you can create the perfect island paradise in Animal Crossing: New Horizons with the Animal Crossing New Horizons Residents' Handbook.

This essential unofficial guide contains everything you need to prepare for your new island life, including tips on how to:

- build and design your dream home
- gather resources and recipe cards to craft and customize tools, furniture and other decorative items
- populate your island with friendly animal villagers -- each with their own, often very funny, personalities
- help Blathers fill your island's museum with fossils, critters and art
- connect with up to 7 friends and share your personal paradise online

What's more, Animal Crossing New Horizons Residents' Handbook contains plenty of inspirational landscaping and terraforming ideas, insider information and guides to characters, resources and special events. It's the perfect book to help you live your best deserted island life!
