ABOUT THE AUTHOR

JEREMY COLLINS is an artist, climber, and conservation activist. His complex, cerebral, and whimsical drawings and maps have been featured in books, films, and commercial work. From the cover of *National Geographic* to his award-winning book *Drawn: The Art of Ascent*, he is a driving force in the outdoor industry. As an activist, he donates his time, voice, and work to causes he believes in. As an athlete, Collins puts up first ascent climbs around the globe and directs a world-renowned 24-hour climbing competition called Horseshoe Hell. He lives in Kansas City, MO and Running Springs, CA.

Graphic memoir that brings together adventure, community, conservation, and personal growth from an award-winning artist and storyteller.

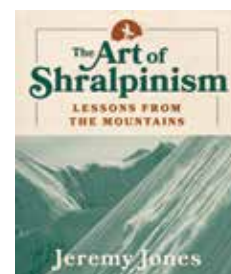

- Features original art never before published in print
- Explores themes of evolving creativity, the universality of art, stewardship, and more
- Captures life-changing and world-expanding experiences through story, layered art, and graphic illustrations

Based on Jeremy Collins' extensive, art-filled travel journals, *Eventually a Sequoia* is part memoir, part manifesto. Collins, already highly regarded as an artist and climber, was invited to bring his sketchbook on a new kind of adventure: documenting the experiences of those who live along the endangered Amazon River. From there, his art and his curiosity took him to other endangered corners of the world, including the Arctic National Wildlife Refuge, the mountains of Nepal, Bears Ears National Monument, and the soaring redwoods of California.

Collins's art-based storytelling captures these experiences in visceral form, from the wonder of passing caribou to the terror of a venomous snakebite. Through it all, he profiles the "sequoias" he meets—people whose small seeds produce enormous results, like explorer and film director Céline Cousteau, community organizer and educator Prem Kunwar, Ancient Forest Society founder Wendy Baxter, and more.

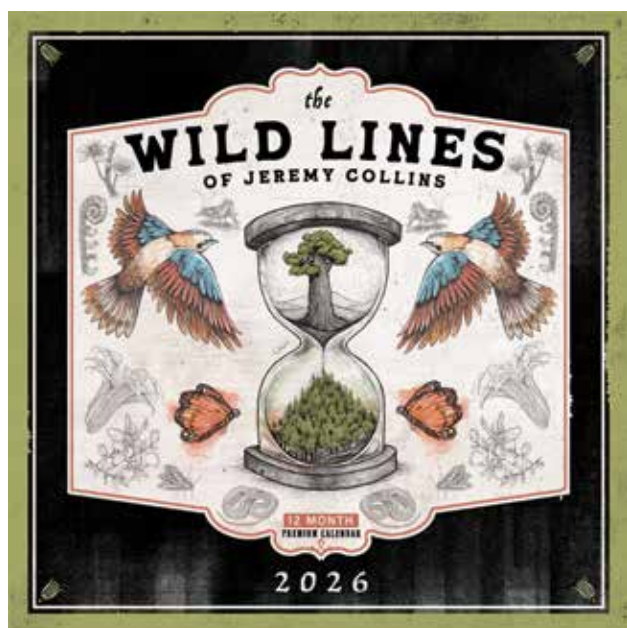

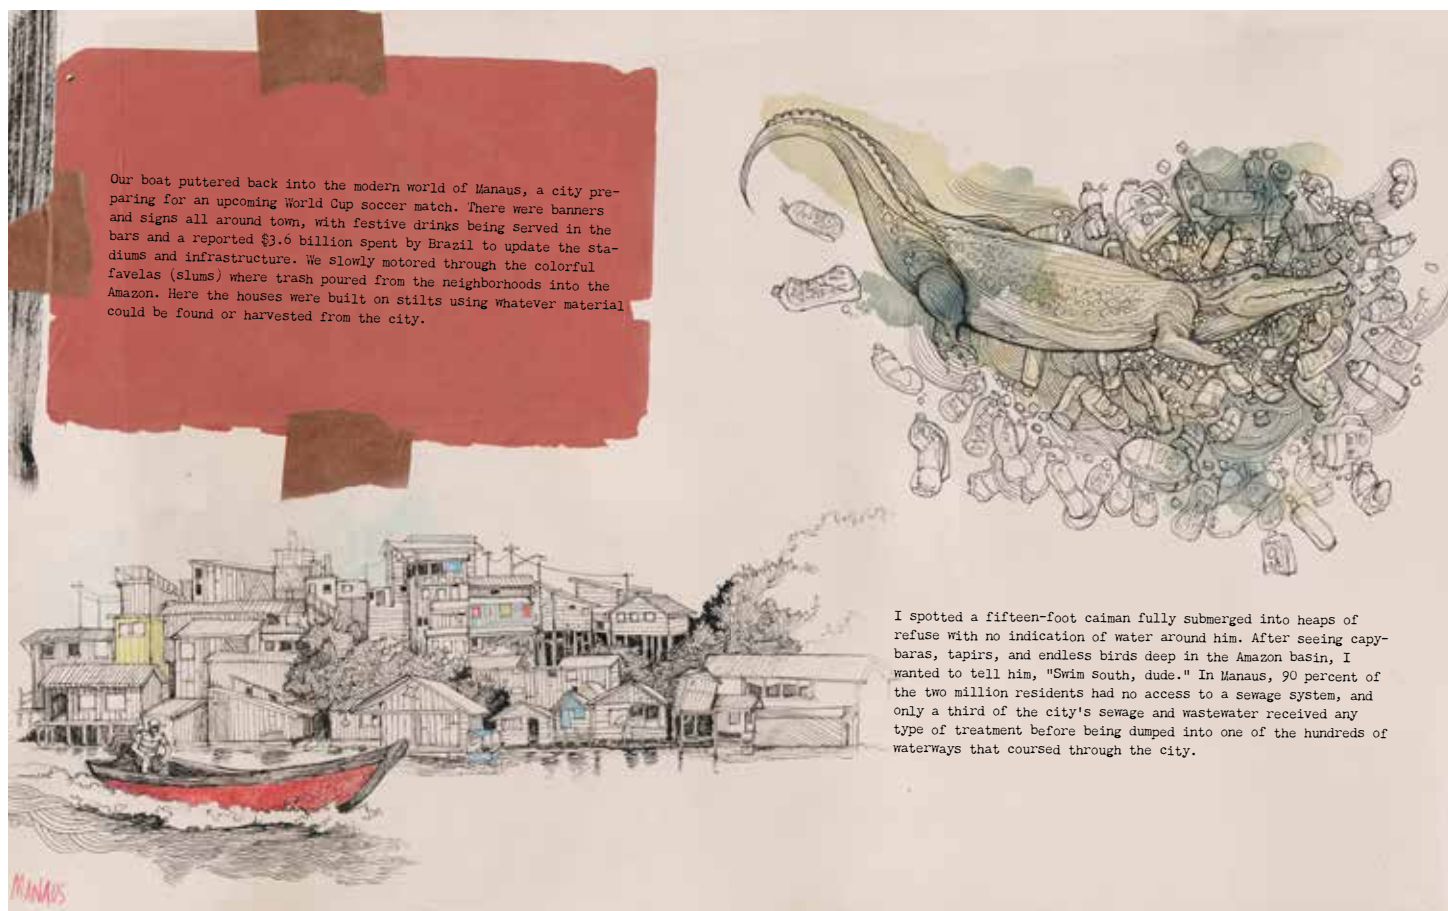

Eventually a Sequoia is an inspirational and vivid exploration of the natural world and how it can empower an individual to grow, change, heal, and thrive.

GREG KOTTKAMP

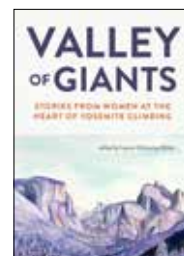

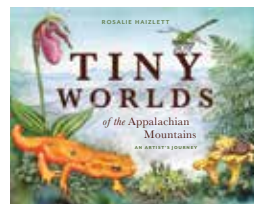

Richly authentic collection of photography and stories celebrates Southern climbing culture

- Features a hand-drawn overview map by Boone-based artist Joey Henson
- Intimate portraits, lush and rugged landscapes, action shots, and stories depict a vibrant community
- Takes the reader deep into the iconic and lesser-known climbing landscapes of the South such as Alabama's Little River Canyon, the Tennessee Wall, North Carolina's Linville Gorge, and the Chattahoochee River

Spare These Stones: A Journey Through Southern Climbing Culture is a captivating visual and narrative exploration of the evolution of climbing in the Southern United States during the transformative decades of the 1990s and 2000s. From its clandestine roots, when climbing was an underground pursuit shrouded in secrecy with areas passed around through word of mouth, to its rise in accessibility through grassroots efforts and land conservation, photographer and filmmaker Andrew Kornylak delves into the intricate threads of geography and culture. This heart-shaped region of Southern climbing, stretching from Nashville to Charlotte and Atlanta to Lexington, is known for limestone and sandstone cliffs, hard bouldering, and challenging roof cracks. Highlighting efforts of the community to protect climbing areas, Kornylak shares stories about Jerry Roberts, Joey Henson, Greg Kottkamp, Lisa Rands, Adam Henry, James Litz, and many more at off-the-beaten path spots and iconic destinations like the Tennessee Wall near Chattanooga and Horse Pens 40 Ranch in Alabama.

Spare These Stones celebrates the resilient spirit of Southern climbers and their profound connection to the rugged, culturally-rich areas they call home.

A CABIN IN THE WOODS

I first encountered climber Joey Henson as a black-and-white photograph in *Stone Crusade*, John Sherman's seminal book about his bouldering road trip across America. In the perfectly composed frame, Jim Horton is halfway through the crux mantle on the Blowing Rock, North Carolina, V6 testpiece *Raw Terror*. His arms are crossed, trapped beneath the weight of his body on the sloping lip, and his expression a balance of effort and fear. From six feet below, chalk-white hands emerge. The spotter's face is in shadow, but the outstretched fingers are unmistakable to me now as Joey's.

In our film about Joey, *The Mapmaker*, my codirector Carlo Nasisse frames the same perpetually chalked hands that now stretch out below Richie Hum as he inches up the thin, mossy face of the terrifying highball *The Nimble* (V10). Through my camera looking down from the top, Joey's six-foot-three frame recedes as Richie climbs ever higher, an intimate stream of encouragement floating up into my microphone: "Keep trying . . . find those stances . . . keep trying . . . I'll catch ya."

Sherman dedicates nearly an entire chapter to his old friend Joey in *Stone Crusade*, but there are no photographs of him climbing in the book. Nor will you find many photos of Joey in old magazines or videos or the internet. Though his climbing exploits are legend, he keeps a low-key existence at the foot of an old-growth mountainside outside Boone in a climber's outpost known simply as "the Barn." It's here that Joey hosts and mentors traveling climbers and where he puts the finishing touches on his imaginatively hand-drawn maps of some of the hundreds of climbing areas he's visited.

NEW SERIES: CAMPFIRE STORIES GUIDES

Ignite a sense of wonder and discover a deeper appreciation of place through storytelling

- Curated story collections explore the rich and diverse legacies of America's beloved natural places
- Local recommendations for outdoor exploration, select cultural activities, camping options, gateway towns, and more
- "How to Visit Well" and "Community Resources" sections offer tips on sustainable travel while highlighting cultural, Indigenous, and conservation organizations

Expanding on the bestselling *Campfire Stories* volumes, which feature shareable tales from our national parks, this new series from Ilyssa and Dave Kyu immerses readers in the storytelling endemic to America's beloved natural spaces, offering unique tours through diverse histories, lore, and landscapes.

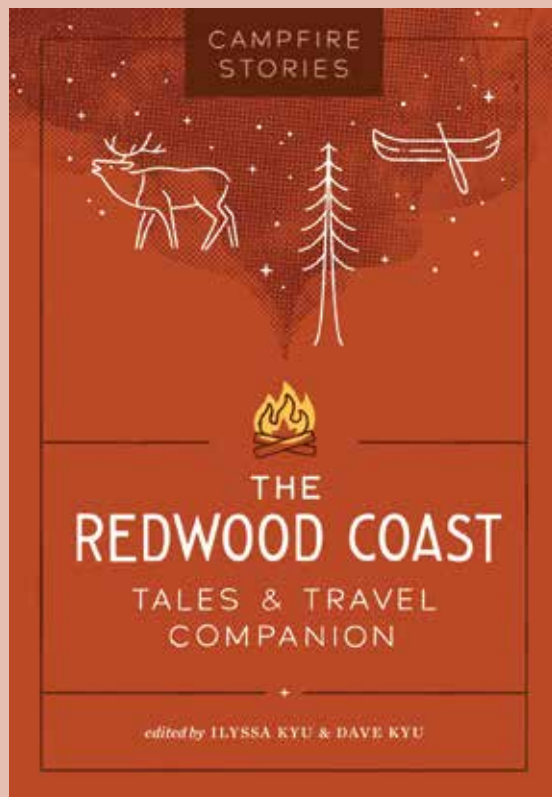

Part story collection and part travel companion, each eye-catching volume begins with an anthology of "campfire stories"—from classic passages to original poetry, historical excerpts to fresh perspectives, treasured folk songs to local myths. Through the magic of storytelling, readers are deeply drawn into each distinctive terrain. These tales are then followed by a mini-guide: community-sourced recommendations for outdoor activities, cultural landmarks, and historical points of interest that will enrich the reader's experience, as well as tips on how to best travel lightly and respectfully through these scenic and varied public lands.

ABOUT THE AUTHOR

Born in 1944 in Villnöss, South Tyrol, REINHOLD MESSNER is the most famous mountaineer and adventurer of our time. He has achieved roughly one hundred first ascents, climbed all fourteen eight-thousanders, and crossed Antarctica, Greenland, and Tibet, and the Gobi and Takla Makan deserts. After serving as a member of the European Parliament, he now devotes much of his time and energy to his farm, the Messner Mountain Museum project, and his foundation, which supports mountain peoples and culture worldwide.

The “Mountain King” looks back on eight decades, summit controversies, and his lasting legacy of climbing for the experience and the journey

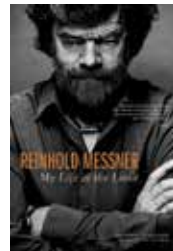

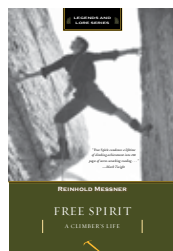

- First time Messner addresses his titles and controversies on the record
- This is the first and only English-language edition
- Includes recent events from Messner’s life, both personal and political

Reinhold Messner is one of history’s greatest mountaineers, a man who pushed the frontier of what is possible for a whole generation of climbers and beyond. In his new memoir, *Against the Wind*, Messner looks back on a life of accomplishments and recounts some of the most important episodes after turning eighty in 2024.

He also addresses darker times and infamous controversies—including being discredited as a young mountaineer, his divorce and remarriage, Guinness stripping him of his world records in 2023, the recent revisions to measurements of 8000-meter summits, and the discovery of his brother Gunther’s remains on Nanga Parbat.

This new memoir is classic Messner—no apologies, no regrets, and no backing down.

Detailed guide to the most abundant and tasty edible wild plants in the Pacific Northwest

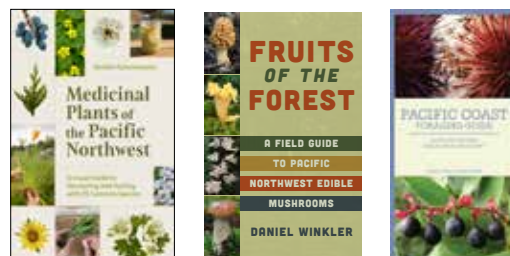

- Overviews of 40 edible plants with history, common names, and subspecies
- Beginner-friendly resource explores native, non-native, and invasive plants with detailed listings, recipes, plus a seasonal harvest calendar
- Full-color ID photos with detailed close-ups, as well as contextual photos of plants in the wild

A foraging guide that emphasizes the tastiest wild foods of the region, *Edible Plants of the Pacific Northwest* is a comprehensive, effective, and ethical resource for anyone interested in foraged food. Appropriate for beginners and experienced naturalists alike, this book teaches readers to identify, harvest, and cook with 40 of the region's most common wild plants.

Expert forager and educator Natalie Hammerquist not only teaches readers to recognize the most common plants, but she also shows them how to steer clear of threatened species, as well as toxic and poisonous plants, using highly detailed visuals to make identification more immediate and accurate. Her holistic approach to wild foods incorporates both Eastern and Western traditions, as well as folk knowledge, and invites people to form relationships with the land and to act with reciprocity and care in our wild spaces.

Plants range from familiar treats like nettles and evergreen huckleberries, to lesser-known edibles like cattail, mallow, wood sorrel, and more. Recipes include local favorites like rose-petal jam, dock-seed crackers, and slow-cooker applesauce.

BAIL CAKE

Not every day in the mountains goes as planned. And if it did, it probably wouldn't be nearly as alluring to seek out big lines on our skis. We prepare as much as we can, but sometimes the stars don't align, and we're forced to tack tail and retreat from our objective. To reward ourselves for listening to the mountain and practicing patience, we started the tradition of Bail Cake. It's exactly what it sounds like: a cake we eat when we bail from our initial plan or objective. It's an easy one-bowl cake (since big objectives often leave us starved for sleep) made with ingredients we often already have on hand and a variety of easy-to-substitute berries, citrus, and sweeteners. Minimal prep, maximum reward. It's a sweet reminder that the mountains will always be there.

Makes one 9-inch round or 8-inch square cake

- 1 cup plain, full-fat yogurt
- 1/2 cup coconut sugar
- 1/2 cup maple syrup
- 3 eggs
- 1 teaspoon vanilla extract
- Zest from one orange or lemon
- 1/2 cup all-purpose flour or a gluten-free all-purpose flour mix
- 1/2 cup spelt flour (or substitute with all-purpose, whole wheat, or gluten-free mix)
- 1/2 cup almond meal
- 1 1/2 teaspoons baking powder
- 1/2 teaspoon kosher salt
- 1 cup berries of your choice (we like a mix of raspberries and blueberries), divided
- 2 teaspoons white sugar, for topping
- Powdered sugar, for dusting
- Ice cream, for serving

Preheat the oven to 350 degrees F and butter or grease an 8-by-9-inch, square baking dish or a 9-inch, round cake pan.

In a medium bowl, stir together the yogurt, coconut sugar, and maple syrup.

Whisk in the eggs, then add the vanilla and citrus zest (the more the better!).

Add in the flour, almond meal, baking powder, and salt. Stir well.

Carefully fold in the berries (trying not to mush them) and reserve a handful to sprinkle on top. Raspberries are the most delicate (and also the most delicious).

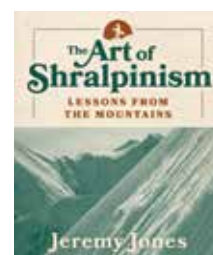

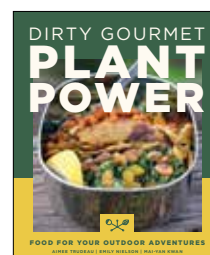

Sprinkle with the white sugar and bake for 32 to 38 minutes, or until a knife in the center comes out clean. Add a dusting of powdered sugar and one scoop of ice cream for each hour before 6:00 a.m. that you got up today.

Enjoy on the couch with your feet up.

SKID HACK: Make two of these cakes and freeze them for the ultimate lazy dessert when you arrive home totally wrecked from a hard day.

**A completely new, comprehensive, full-color guide to
 some of the most iconic trails across the state**

- Includes “Best for” trail lists for wildflower viewing, fishing, views, waterfalls, and more
- Detailed full-color topo maps and stunning color photos complement every trail

The varied landscapes of Oregon are a year-round hikers paradise, offering an abundance of volcanic peaks, dramatic coastlines, lush forests, wide-open high deserts, winding canyons, and sparkling alpine lakes. Hiking expert and author Eli Boschetto brings his deep knowledge and passion for trails and Oregon’s hiking community to *100 Classic Hikes: Oregon*. Designed for use by day hikers and backpackers alike, this new guidebook highlights the state’s best natural spaces along with routes of historical or cultural significance. Boschetto provides options for both shortening or extending many hikes so everyone can find the route that matches their skill and energy level—and, of course, includes distance and time for each route as well as difficulty rating, elevation gain, permit information, and more.

ABOUT THE AUTHOR

ELI BOSCHETTO is the author of *Hiking the Pacific Crest Trail: Oregon*, *Day Hiking: Mount Hood*, and *Urban Trails: Portland*. He is a former writer for *Backpacker* magazine and editor of *Washington Trails* magazine and has served on the advisory council of the Oregon Trails Coalition. Eli lives in Portland, OR.

ABOUT THE AUTHOR

PAUL BANNICK is the award-winning photographer and author of four books, *Snowy Owl: A Visual History*, *Great Gray Owl: A Visual History*, *The Owl and the Woodpecker: Encounters with North America's Most Iconic Birds* (finalist for the Washington State Book Award), and *Owl: A Year in the Lives of North American Owls* (gold medal recipient of an Independent Publishers Book Award). Based in Seattle, Paul travels all over the world in pursuit of wildlife imagery that encourages conservation.

Discover the secret and seasonal lives of woodpeckers through an award-winning photographer's intimate experiences

- Extraordinary, dynamic photographs of all 41 North American species
- Robust and accessible natural history
- Includes a comprehensive field guide

Woodpeckers are one of the most remarkable bird species found in the avian world. They have evolved in ways that make them ecologically critical to forest health, serving as keystone species in a variety of wooded habitats across North America. Their activities support myriad other creatures, making them catalysts for diversity in the places they inhabit. They are, in many ways, the heartbeat of the forest.

Informed by his own experiences in the field as well as extensive research, author and photographer Paul Bannick delves into the natural and cultural history of woodpeckers from the boreal forest of northern Canada to oak woodlands and conifer ecosystems in the United States to the wet tropical forests of Mexico and the Caribbean. He captures the woodpeckers' charismatic behavior as well as their colorful displays and sensitive habitats in astonishing and never-before-seen images. Through his photos along with accessible, science-based text, Bannick explores their courtship and nest selection processes in spring; life in the nest during summer; fledging and gaining independence in autumn; and the challenges of winter survival. He compares and contrasts typical behavior and anomalies among the 41 woodpecker species found in North America, and shares their conservation outlook for the future.

ALSO OF INTEREST

Sample pages from *Woodpecker*

Woodpeckers are uniquely built, with many adaptations that likely add to their ability to withstand serious injury, including a chisel-shaped bill that reduces resistance; dense, spongy cranial bones; minimal cerebral fluid; and reinforced neck and rib structure. The shape and placement of the woodpecker bill in relation to the orientation of the brain likely limits impact. Surprisingly, the orientation as well as the size of the brain are the biggest factors in woodpecker brains receiving 60 percent less pressure than needed to cause a concussion in a human, even with the most violent pecks.

Birds have relatively small brains, with the woodpecker's roughly seven hundred times smaller than a human brain, giving it a lower mass to surface ratio and spreading any impact over a larger area, thus reducing the risks. Woodpeckers would have to strike a tree at twice their current speed, or a tree four times as stiff, to sustain a concussion. It is possible that the protection afforded by the smaller brain helps explain why woodpeckers have not evolved to be larger.

We do not fully understand the reasons for all of the unique morphological adaptations of the woodpecker's skull, but they may include mechanisms to prevent and repair trauma to the brain from repeated strikes and help prevent long-term brain damage.

Tongue

A woodpecker's tongue can probe, spear, or stick to prey before retracting into the skull until needed again. Regardless of species, all tongues are cylindrical, slender, maneuverable, and barbed, but they vary in length and especially the number and type of barbs, particularly at the tip, depending upon the type of food they pursue. The tip of the tongue is touch sensitive, allowing the woodpecker to feel for prey, but also stiff with the spinelike barbs angled backward to better retract food. The length of the tongue also reflects the way a woodpecker feeds. Flickers can extend their tongue two inches or more beyond the tip of their bill, an adaptation to pursuing ants deep inside their tunnels.

Many species have enlarged salivary glands that coat all or part of the tongue with a sticky substance as it leaves the bill. This feature is particularly important for woodpeckers that pursue ants, including *Colaptes* species such as flickers, Golden-olive, and Gray-crowned Woodpeckers, and *Dryocopus* species such as Pileated and Lined Woodpeckers. In these species saliva often covers most or all of the tongue.

In other species, the saliva covers only parts of the tongue so the birds retain the flexibility and sensitivity to feel for prey without getting it stuck. Woodpeckers that specialize in subsurface excavation, such as the Black-backed and American Three-toed, have a shorter but more barbed tongue to snare beetle larvae as they retract it from tight spaces. Sapsuckers that glean from wells three-quarters of an inch or less have a short, brushlike tongue that laps up sap. The Acorn Woodpecker's tongue is similar to that of sapsuckers and makes it well adapted to licking sap.

Together, these anatomical features arm and shield the woodpecker's body for its physically demanding lifestyle.

The world's most comprehensive and respected source for each year's major climbs

- Hundreds of first-person reports and photos
- Authoritative route-line diagrams and maps
- In-depth stories carefully edited by a team of experts

Published annually since 1929, the *American Alpine Journal* (AAJ) is renowned as the journal of record for new long climbs of all types. Lavishly illustrated with color photos and maps, the AAJ is where the world's leading climbers tell the stories of their biggest routes—the climbs that will be tomorrow's legends. All reports are carefully edited by a team of experts, ensuring accuracy and objective reporting. Each year we reveal many newly discovered—or long forgotten—climbing destinations and untrodden summits, from the United States to the Greater Ranges.

The AAJ is produced by THE AMERICAN ALPINE CLUB and written by hundreds of contributors from around the world. A large team of professional editors is headed by veteran climbing journalist Dougald MacDonald.

They also produce the monthly Cutting Edge podcast, featuring interviews with top climbers just back from major climbs: americanalpineclub.org/cutting-edge-podcast

CAMPFIRE STORIES COLLECTION

Inspired by the rich history and incredible landscapes of our national parks, the CAMPFIRE STORIES collection brings together the great outdoors and the world of storytelling. Discover stories rooted in the parks and other special public lands from well-known writers and new voices, plus tales passed through generations of Indigenous peoples. Be inspired to experience these places in an intimate and authentic way, or spark your own storytelling with thoughtful, lively prompts from the decks.

APPALACHIAN TRAIL CONSERVANCY

If you're planning to hike the AT, whether a section or the entire route, then these are the guides you need. Updated every five to ten years, each guide is packaged in a resealable plastic bag and includes up to seven sheets of maps.

The books feature detailed trail descriptions, water sources, shelter and camping sites, road access directions, points of interest, and background information.

All guides have unidirectional trail descriptions with additional natural and cultural history information for each section.

The maps are water- and tear-resistant topographic maps with elevation profiles and major side trails.

REGIONAL INDEX

Following is an index of titles sorted by region. We've indexed guidebooks here to make it easy to find the ones that are near you. Also included are some narrative adventures, because it's always fun to read stories that took place near where you live or in a faraway place you're interested in. A little more than half our catalog can be organized regionally. But don't forget about all those sports instructionals, general lifestyle topics, and wild, sweet, and romantic tales that aren't in this index. You need to browse through the pages here to find those treasures or, if you know the title, you can find them in the Title Index.
