Dot-Grid Pages

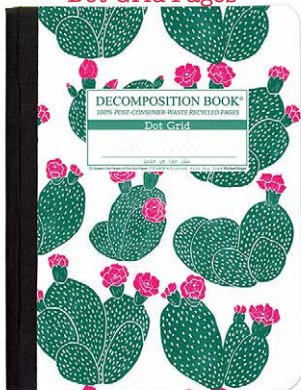

Decomposition Books feature 100% post-consumer-waste recycled pages, soy ink printing and colorful and unique designs. They can be found in classrooms, homes and workplaces around the country and across the world.

You may have even caught a glimpse of one in the hands of a character in a favorite TV show or hit movie.

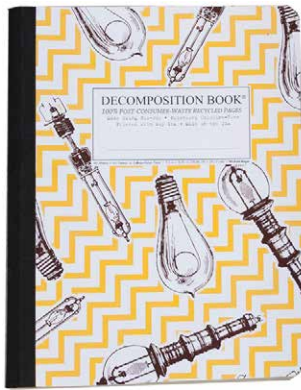

We're continually adding new cover choices. Variety and novelty drive sales, and so does finding a design that suits an individual's tastes and interests.

Decomp binding is center (saddle) sewn or spiral-bound. Full-size books are 7.5" x 9.75" and have 80 sheets. Pocket-size books are 4" x 6" and have 60 sheets. Prices and other details subject to change.
