Animals & Their Babies
Artists: Francis Horne Sr. and Simone Diamond, Coast Salish
Author: Simone Diamond, Coast Salish

Animals & Their Babies was created by father and daughter Coast Salish artists Francis Horne and Simone Diamond. It is the first Indigenous board book that features baby animals and their parents. Through this board book, young children can learn the names of baby animals while being introduced to traditional, authentic Coast Salish Indigenous art at an early age. *Animals & Their Babies* is Simone Diamond's first board book ever written.

"The vital love and bond between animals and their babies provide an endless source of inspiration."
Francis Horne Sr. and Simone Diamond, *Coast Salish*

"My daughter, Simone Diamond, was born into a world of creativity, blessed with a rich cultural background. From an early age she was passionate about learning Coast Salish Art.

Our art is our recorded history, expressing stories, legends and connections to ancestors and the natural world. Coast Salish artists become knowledge keepers and play an important role in the continuation of our art and culture.

This book celebrates art, culture, the natural world and the love between parents and their children."
Francis Horne Sr., *Coast Salish*

"On a daily basis I witness the natural world around me. My observations translate into my art. Coast Salish art has allowed me to connect to my roots. My art is a form of expression that was waiting to manifest and chose to do that through my hands and vision. I am grateful that I get to share this gift with the world and hope that it inspires others to authentically express their own creativity in whatever form or medium that may be. Parenthood has allowed me to slow down in this fast-paced life to nurture my daughter's curiosities of the world around her."
Simone Diamond, *Coast Salish*
