OH!
I ♥
U SO

With our introduction of 64 greeting cards, the Decomposition line has grown to hundreds of designs spanning several stationery categories. All Decomposition Books and cards are made in the USA and feature 100% post-consumer-waste recycled paper. Your customers will love our distinctive designs for their class notes, sketches, thoughts and reminiscences. Decomposition Book binding is center (saddle) sewn except where marked. Full-size books are 7.5" x 9.75". Pocket-sized books are 4" x 6". Others sized as marked.

Come visit our new home for all things Michael Roger: **decomposition.com**

Qualifying wholesale customers (operating one or more brick-and-mortar stores) may register for an online account to see all the latest products and promotions and to place orders.

Our website is now linked with our accounting system, enabling real-time access to inventory levels on all products and giving customers the ability to have their orders immediately pushed into the production queue. Orders placed online ship, on average, one day faster than orders sent via fax or email.

Introducing a new line of sketchbooks with 60 sheets of high-quality, 70lb textweight unlined paper. This is a more substantial sheet than the 50lb textweight paper in our traditional Decomposition Book line, giving the user more versatility and less bleed using a wider array of dry-media options.

These sketchbooks feature the same eco-friendly bona fides as the rest of the Decomposition Book product line, including 100% PCW-recycled pages and soy-ink printing.

Their utilitarian covers are a blank canvas perfect for art students to adorn as they see fit. Your customers can make the book their own -- inside and out! Books are 7.5" x 9.75".
