SLEEP EASY

Lots of people have trouble falling asleep. Try these quick tips to help your mind and body drift off. Mix and match to find what works for you!

Soothing Sips

Before bed, drink a cup of something warm to calm your system and prepare for sleep. Warm milk or chamomile tea may help do restless nights. Milk contains tryptophan (which can release mood-boosting, relaxing serotonin in your brain) and melatonin is a hormone that helps regulate your sleep rhythms. Chamomile has been used since forever (well, at least for thousands of years) to induce sleepiness, soothe upset stomachs, and help you make sure that whatever you eat is going down.

White Noise

True "white noise" creates a balance, resulting in a sort of similar repetitive sounds may help you fall asleep—you can use a fan, ocean waves, light rain, and it can also listen to soothing podcasts. Choose a topic that won't mess with your sleep.

Breathe Deep

You know the old saying about rhythmic activity of counting during deep breathing can release

belly breathing. Place one hand on your upper chest, and the other below your rib cage. Slowly breathe in through your nose, drawing the breath down to your stomach. Feel how your back and ribcage expand. Then, slowly exhale through your mouth, letting the air leave your stomach without collapsing that space in your ribcage. The hand on your chest should remain still, while the hand on your belly rises and falls. Continue until you feel chilled out.

Relax Your Muscles and Your Mind

Starting with your toes, gradually tense and relax your muscle groups one at a time. As you relax each group, moving from your feet to your calves, and upward toward your neck and head, visualize the tension leaving your body. This goes for any anxious situation. Just picture yourself relaxing and the stress will drift away from you.

Melatonin is a hormone that helps regulate your sleep rhythms and it's one of the most common sleep aids available, but as

PETER PAUPER PRESS

OUR COMPANY

In 1928, at the age of twenty-two, Peter Beilenson began printing books on a small press in the basement of his parents' home in Larchmont, New York. Peter—and later, his wife, Edna—sought to create fine books that sold at “prices even a pauper could afford.”

Today, still family owned and operated, Peter Pauper Press continues to honor our founders' legacy—and our customers' expectations—of beauty, quality, and value.
