The original, sensational horror story, now in an elegant modern format.

Frankenstein: The 1818 Text

Mary Wollstonecraft
Shelley

A brash young doctor named Victor Frankenstein wants to unlock the secrets to life itself and create the perfect human. Instead, he animates—and abandons—a horrific creature who from its moment of birth is shunned by society and refused all compassion and love. Frankenstein must either face his creature and pay for his hubris, or watch as those he loves pay with their lives.

Although *Frankenstein* was a bestseller when first published in 1818, Shelley heavily revised the 1831 edition to reflect her radically altered outlook on life (from free will to fatalism) as well as to blunt criticisms that her story was 'immoral.' This faithful reissue of the beautiful and evocative 1818 horror story restores the author's original tale—considered by many to be the first science fiction book in the English language.

Virginia Woolf To The Lighthouse

978-1-989544-06-8
5.25 × 8, 224pp
paperback
\$21

At their summer home on the Isle of Skye, Mrs Ramsay promises that they will visit the lighthouse located far offshore. Mr Ramsay counters that the weather will not work in their favour. Over the course of ten years – from promise to the actual visit, from carefree summer to post-war realities – the Ramsays and their eclectic group of artist friends each reflect and adjust their perceptions of the world and their own place in it as life (and loss) reshape their personal philosophies.

Considered one of the most important books of the twentieth century, Woolf's stylish, modernist (and most autobiographical) novel uses a fictionalization of her parents' unique marriage to weave together her own thoughts and philosophies about life, art, and the complexity of human relationships.

F. Scott Fitzgerald The Great Gatsby

978-1-989544-03-7
5.25 × 8, 186pp
paperback
\$17

In 1922 Nick, a would-be writer, moves to a waterfront home on Long Island and ends up next door to a mysterious millionaire named Jay Gatsby, who hosts wild parties that are the talk of New York—yet very few of his guests know who he is or where he came from. Directly across the bay lives Nick's beautiful, wealthy cousin Daisy and her husband, Tom, a brash bully used to getting his own way. As the languid Long Island summer stretches on, Nick is drawn into the captivating world of the wealthy—the rumours, illusions, and deceptions of his new friends—and pens a tale of impossible love, ambition, and tragedy.
