CHRONICLE BOOKS

Our mission to be ethical and sustainable

At Petit Collage, we design our products to be long lasting and high quality. We want children to enjoy years of play before passing their toys and games on to be loved by someone else.

But we know that everything has a carbon footprint, which is why we work hard to ensure that our products are as environmentally low-impact as they can be.

At all stages of new product design and development we actively focus on creating something beautiful that ourcustomers want to keep andtreasure. We work with a small select group of suppliers to choose the correct materials for longevity and functionality, whilst ensuring that production materials and processes are as kind to the environment as possible.

We've also adopted a much more conscious approach towards transit. We use recyclable materials to protect products and have made it a priority to reduce overall packaging size and material use, thus improving shipping efficiency, and we continue to look for more ways to reduce our transit footprint.

We are deeply committed to communicating our eco claims clearly and without green washing. We recognize that sustainability is an ever-moving target and we're constantly looking for ways to improve the standards we apply to all our products and processes.

Our Factories

We care how and where our products are made and our suppliers all hold valid and in-date full ethical audit reports. By sourcing responsibly and working collaboratively with our partners, we reduce pre- and post-production waste, create more encironmentally conscious goods, and provide increasingly sustainable options for our packaging. All of this moves us toward our goal of leaving a better world for future generations without restricting childhood fun.

WHAT MAKES OUR PRODUCTS ECO-FRIENDLY?

- No single-use plastic used in new product development and transit.
- All paper and wood is FSC, and inks are vegetable-based.
- Packaging uses up to 70% recycled materials and is curbside recyclable.
- We use recycled materials for all our puzzle and game zip pouches, and wherever we can in our wooden toys.
